**SAVE 50% TO 75% MACHINE
TIME WITH DOUBLE, TRIPLE,
QUADRUPLE ABLE-STIK LABELS**

Many tabulating machines and all high speed printers can print-out several labels mounted across the carrier. There are important savings in machine time, whether identical labels are produced at one time, or the printer is programmed to create 2, 3, or more different labels in a series of machine cycles.

MULTIPLE LABELS IN STOCK:

No. 15-25 doubles, triples, quads, quints.
No. P-35 doubles, triples.
No. P-40 doubles, triples.
No. P-50 doubles.
No. 15-33 quads. No. 15-40 doubles,
No. 15-29 quads. triples.
No. 7-275 quads. No. 15-275 quads.

COLORS ABLE-TINT LABELS

Are ideal for coding documents or adding color in any labeling application. They are available for immediate delivery in Pastel Blue, Green, Yellow and Pink, in the following sizes: P-35, P-40, P-50, 7-275.

CODING WITH COLORED INKS

In addition to tinted label stock, a variety of attractive ink colors can be used to code imprinted copy.

ADDRESSING

able-stik® PINFEED PRESSURE-SENSITIVE LABELS

WHAT THEY ARE

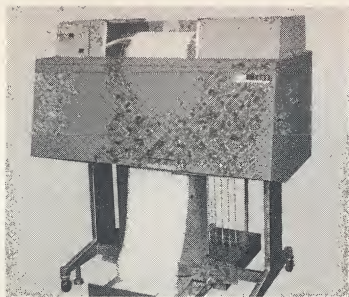

Individual pressure-sensitive labels accurately positioned on a continuous marginally punched carrier. They can be blank or printed. Adhesive, either permanent or removable, permits affixing to any clean, dry surface without heat or moisture.

WHY THEY ARE

Able-Stik® pressure-sensitive pinfeed labels enable the transfer of information from punch cards, punch tape, or magnetic tape to envelopes, file folders, tape reels, physical property. In fact, any surface requiring identification that cannot be processed through the high speed printer.

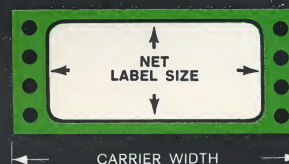

Able-Stik labels save machine time by cutting the running time required by large forms, documents, or envelopes.

FOLLOW THESE ⁵ EASY STEPS IN PLANNING YOUR USE OF PINFEED LABELS

1 Select size you need: all labels shown are actual size, all measurements shown are net label sizes (after removal from pinfeed carrier sheet). Label-to-label placement compatible with either 6 or 8 to the inch machine spacing.

2 Determine overall carrier width by adding $\frac{3}{4}$ " to net size (one exception: less than $3\frac{1}{2}$ " width labels supplied with pinfeed on left side only.

3 Refer to Stock Number on Price List for blank, unprinted labels. Select price on sliding scale based on quantity.

4 For imprinted labels, refer to Imprinting Costs: add charges to blank label prices.

5 To convert a stock size label to a size not shown, refer to Size Variations on left hand panel below. Add diecutting charge to the regular stock size prices.

PRESSURE - SENSITIVE ADHESIVE

Adhesive on all stock labels is permanent type (except T42P and other tape reel labels, which have Easy-Peel non-residue adhesive). Price and delivery of labels featuring other adhesives provided on request.

BLANK STOCK LABELS, IMMEDIATE DELIVERY!

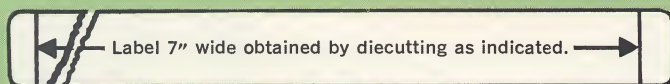

IMPRINTED LABELS, 2-WEEK DELIVERY!

HERE'S HOW TO CONVERT STOCK LABELS TO SPECIAL SIZES

The wide range of standard ABLE-STIK stock sizes should cover almost every possible requirement. When a special intermediate width is required, one or more vertical slits can be diecut to give you the exact dimension needed. The slit gives you square corners. For this diecutting add the regular imprinting charge to the cost of the blank label. (For diecutting and imprinting, add imprinting charge twice.)

For example: You specify a label 7" wide and $\frac{1}{3}$ " deep. No stock size is shown in a 7" width. We select a label that is slightly larger than the required 7" — in this case No. 13-775, which measures $7\frac{3}{4}$ " wide and $\frac{1}{3}$ " deep. On this basic label draw two vertical lines 7" apart. The two vertical lines represent the position of the diecutting required to give you the specified size. See diagram below:

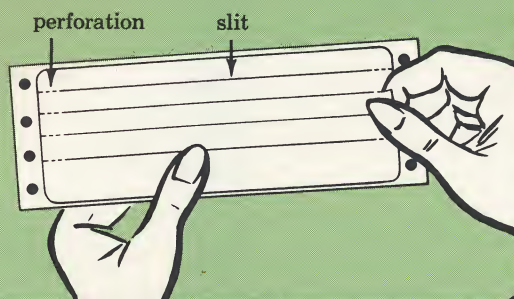

Stock label $7\frac{3}{4}$ " wide

To reduce vertical dimension use horizontal slit and price in the same manner.

POST A FULL LABEL or A SECTION

A unique construction! Designed for use where flexibility is desired in posting only the section of the label printed out with machine entries. Each label can be used in its entirety, or in segments. After removal from the carrier, the upper section separates cleanly at the slit below the last entry and the short perforations at both ends break away easily.

the able-stik® QUALITY STORY

MANUFACTURING CONTROL IN THESE AREAS	PROVIDES THESE PRODUCT FEATURES	WHICH INSURE THESE OPERATING RESULTS
Clean Punching	No Confetti	No Obliterated Characters
Strong Carrier	No Breaks in Pack	No Lost Machine Time
Close Inspection	No Missing Labels	No Need to Retrieve Lost Data

BACKED BY THE ONLY PERFORMANCE GUARANTEE IN THE INDUSTRY

Performance Guaranteed

The quality and performance of able-stik labels is guaranteed. If our labels do not perform as represented, causing any loss of time in the use of your equipment, take the following steps:

1. Return the defective labels for replacement or full refund — the option is yours.
2. Present evidence of bad performance and we will refund up to 25% of the value of the label order — maximum of \$100 — to indemnify you for any loss of machine time.

Pressure-Sensitive Able-Stik® Labels for Data Processing Systems & Industry

General Offices: 385 GERARD AVE. BRONX, N.Y. 10451 • Phone: (212) 665-1818

Nationwide sales, manufacturing, distribution facilities

BOSTON • NEW YORK • PHILADELPHIA • CLEVELAND • CHICAGO • DETROIT • LOS ANGELES
ATLANTA • CHARLOTTE • DALLAS • SAN FRANCISCO • ST. LOUIS

This is an ABLE-STIK pinfeed label with "Perf-a-slit" feature. Run at high speed through a data processing machine, the pressure-sensitive label first receives imprinted entries. Through a unique combination of slit and perforations it is possible to post to a record card the entire label or only that portion on which entries appear.

Label stock can be smudge-proof paper or transparent matte acetate. The latter is used on translucent masters for diazo reproduction, or on opaque ledger cards to permit show-through of preprinted rules.

A wide variety of slits and perforations, as well as label sizes, is available.

For overall carrier dimensions, add 3/8" to each side for marginal punching, and 1/16" to depth. Example: P-40 label, net size 4" x 1 1/16", overall 4 3/4" x 1 1/2". Exception: labels under 3 1/2" width have pinfeed one side only.

IMPRINTING COSTS

For simple set-ups, printed black ink, add \$5.00 per M in 5M lots, \$3.50 per M in 10M lots, \$1.50 per M in 30M lots, \$1.00 per M, 60M or more. Other colors, add \$15.00 washup charge. For color tinted labels, same imprinting charges apply. No washup charge for standard pastel pink, blue, green and yellow.

TERMS

Net 30 days—Blank stock labels, F.O.B. nearest warehouse: New York, Cleveland, Chicago, Dallas, Atlanta, Boston, Philadelphia, St. Louis, San Francisco, Detroit, Los Angeles or Charlotte. Imprinted labels F.O.B. Cleveland or New York.

Note: 5M quantity shipped from nearest factory: New York, Chicago, Cleveland or Los Angeles.

PERFORMANCE GUARANTEE

Able-Stik is the only label line to carry cash for down-time guarantee. Your assurance of trouble free print-out production.
